Allowable Subject Matter

Claim 1-27 and 29 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of reference does not disclose or otherwise suggest a rolling bearing unit with shield plate comprising an outer ring with anchor groove having an outer raceway and inner ring having inner race, a plurality of rolling members, a shield plate formed in a generally circular ring shape and provided with an inside facing, radial outer portion and an outer peripheral edge portion anchored in the anchoring groove wherein the number "n" of the cutouts and the number "Z" of the rolling members of the rolling bearing are controlled to satisfy each of the following four relationships (1) $n \geq 4$, (2) $n \neq Z$, (3) $n \neq Z \pm 1$ and (4) $n \leq 2Z$, so as to prevent non-repetitive run out from occurring during operation of the rolling bearing with shield plate in spite of the fact that the installation of the shield plate causes minute deformation on the outer ring.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
